To Whom It May Concern:

This correspondence is intended to serve as an enthusiastic endorsement for Sandra Worth and her presentation on Autism Awareness.

Sandra Worth presented six sessions on Autism Awareness for the South Trail Fire District. Mrs. Worth was punctual and well prepared to educate our employees with current information that will benefit our treatment and overall care in the event we are presented with a patient who is on the spectrum. Mrs. Worth was very accommodating as we needed to reschedule two sessions due to an emergency response in our fire district. Sandra was extremely knowledgeable when answering any and all questions presented to her by our employees.

I am excited to have the opportunity to recommend Sandra Worth and her didactic presentation on Autism Awareness.

Respectfully,

Brian Angelson

Training Lieutenant

South Trail Fire and Rescue District
